

Our Services

Experience

Take a look at the services we are able to offer here at NEO Electronics. We always try our best to accommodate any request.

Software & Hardware Design

All designs are made to meet your specifications along with all coding produced in-house. We are the one stop solution!

Prototyping

We can produce a prototype from your schematic or design from a product brief. This allows us to produce the best quality work for you.

Product Testing

All product testing is performed in-house by our expert engineers to ensure quality and functionality.

In-House Manufacture

We can manage the whole manufacture process in-house giving you more control over your design and specification.

High Volume Manufacture

Large quantities can be outsourced offshore, keeping unit costs to a minimum while maintaining our strict in-house quality standards.
